## Hidden Shoal Recordings » Slow Dancing Society Single

**Perth, Western Australia and Spokane, Washington, 17th June 2008. The Australian music label Hidden Shoal Recordings today announced the release of the first track taken from the eagerly awaited third album by US ambient artist Slow Dancing Society.**

Following on from the ice-sculpted cinematics of the critically praised *The Slow and Steady Winter*, 'A Warm Glow' is the perfect introduction to Drew Sullivan's (aka Slow Dancing Society) latest opus, the forthcoming album *Priest Lake Circa '88*.

'A Warm Glow' finds Sullivan issuing forth waves of radiant synth drones and glistening guitars that ripple effortlessly across its sonic vista. As always, Sullivan manages to weave an intrinsically complex emotional spine through the track's near eight minutes. 'A Warm Glow' speaks of both departure and eventual return and perhaps in its broadest sense the notion of "home". Above all this is music to bathe in: warm, steamy and all-encompassing.

The single is lifted from the eagerly anticipated third Slow Dancing Society album *Priest Lake Circa '88*, to be released on 22nd July 2008. The album is, in essence, the second part of a double album that began with *The Slow and Steady Winter* and acts as a long-distance answer to the often complex questions raised in the previous release.

*"superb sophomore effort by Washington-based Drew Sullivan... Frozen sheets of sound course through the epic ambient settings... which don't so much showcase guitar virtuosity as they do lyrical beauty... Be sure to play the album loud in order to fully bask in its splendor"* – **Textura**

*"Slow Dancing Society continue the ambience started in their stellar debut *The Sound of Lights When Dim...* a notable accomplishment. In a genre convoluted with artists, it is difficult to make a name for oneself and with just two albums Sullivan has done just that"* – **The Silent Ballet**

*"Music is all about moments like this. Moments when you are, unexpectedly, knocked over and stunned into submission by an album that has, quite literally, come from nowhere... *The Sound of Lights When Dim* is a deeply affecting, consistently excellent effort of stunning tranquility and beautiful ambience, that demands repeated listening"* – **Boring Machines Disturb Sleep**

'A Warm Glow' is now available from the Hidden Shoal Recordings Store. The single will be available for free download until the new Slow Dancing Society album is released on 22nd July 2008. The album will see both digital and CD release.

Hidden Shoal Recordings is an Australia-based independent music label that has earned a reputation for releasing exciting and engaging new independent music that is not bound by genre or style. Hidden Shoal Recordings was recently chosen as one of the top ten favourite labels of 2007 by Textura magazine and has been dubbed "This generation's 4AD" by prominent New York radio host DJ Mojo.
